

Guitar Raffle 4/8/06

Electric Guitar and Amp package donated by Strings Music Center, California, MD

Total Retail Value: \$511

Samick Torino TR-1

(Gibson SG style)

Source: <http://www.samickguitar.com/tr1.html>

A slender mahogany body generates tons of rich low-mid warmth and power. The use of mahogany in an extremely thin body creates a rare resonant quality, which is not found on the typical solid body electric. This gives the TORINO™ a truly distinctive sound character. If you want a huge, rich sound with great warmth, this guitar deserves a test drive. Duncan Designed™ pickups generate great full tone with the ability to cut when needed.

Torino TR-1 Features: 22 fret 24 3/4 scale, double cutaway sculpted body, mahogany set neck, rosewood fingerboard, die cast tuners, stop tailpiece, adjustable bridge, HH Duncan Design™ pickups.

Color: Black

Retail Value: \$399

Kustom KGA10 Guitar Amp

Gain & Master Volume Controls
10-Watt RMS Output
Gain Boost Switch
One 6.5-inch Speaker
EQ: Wide Range Voice Control
Headphone Jack
Retail Value: \$79

Plus gig bag and cord
