

# MaxUC

Unified Communications Powered by Microsoft®

*AltiGen Communications, Inc. is a leading provider of premise and cloud-based IP-PBX and Contact Center solutions.*

*Having more than 10,000 customers around the world, AltiGen solutions are designed for high reliability, ease of use, and seamless integration to Microsoft infrastructure technologies.*

## MaxUC: MaxCS integrated with Skype for Business

The MaxUC solution enables MaxCS customers to add a complete suite of UC capabilities for their users, including:

- Instant Messaging
- Presence
- Video Calling
- Desktop Sharing
- Web Conferencing
- Mobility

Delivered as a fully managed Cloud service, with MaxUC customers are able to select, by user, the specific UC features required.

## AltiGen's New MaxUC Powered by Microsoft®

MaxUC is an exciting new offering from AltiGen, fully integrated with Skype for Business and Office 365, providing MaxCS customers with an unparalleled Unified Communications experience.

Skype for Business, the industry's leading Unified Communications platform, provides a complete suite of UC applications which are natively integrated with MaxCS and delivered from the AltiGen Cloud as a fully managed service. MaxUC is available to customers using MaxCS on premises or in the AltiGen Cloud.

## Complete

Advanced voice and UC capabilities in a single integrated solution.

## Simple

All UC capabilities delivered from the AltiGen Cloud – fully integrated and hassle free!

## Mobile

Enable complete mobile UC on up to five devices per user. Work from wherever you need to be.

## Reliable

Deployed and managed in AltiGen's secure, fully redundant Cloud.

## Cost Effective

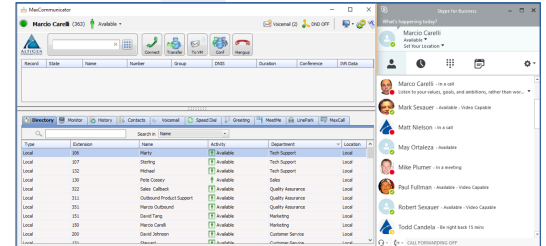

Low, predictable monthly cost – with no set up fees and no hidden charges.

## Integrated Desktop UC with MaxCommunicator

The Skype for Business UC client, integrated with MaxCommunicator, provides users with a seamless desktop voice and UC experience.

Key features include:

- Unified Desktop Client
- Skype for Business IM & P
- MaxCommunicator PBX Calls
- P2P VoIP/Video Calling
- Synchronized Presence

## Integrated Mobile UC Apps

All MaxUC plans include integrated mobile UC apps – at no additional charge - for use on up to 5 devices per user!

Key features include:

- Skype for Business IM & P
- P2P audio and video calls
- PSTN Calling\*
- Web Conferencing

\*with full Skype for Business plan

## Office 365 Integration

For customers who have deployed (or are planning to deploy) Office 365, MaxUC provides a complete Enterprise Cloud PBX for O365 – delivered as a fully managed service from the AltiGen Cloud.

O365 Enterprise Cloud PBX Benefits:

- Leverages your investment in MaxCS
- Complete PBX/UC solution for all employees
- Improves Productivity / Customer Service
- Savings on Office 365 Plan costs
- Reduce telecom costs with AltiGen SIP trunks
